POWAY UNIFIED SCHOOL DISTRICT
ON-LINE COURSE CONTRACT

The purpose of an on-line course is to help students prepare for college. At the same time, it gives students the opportunity to explore technology as a tool for learning. The class will be self-paced but requires that certain assignments are completed and standards are met. Because of the nature of this course, it is important that the teacher, student and parents agree to commit the time and energy needed to complete it successfully. There are set criteria for this class that must be met in order for the student to receive credit.

RESPONSIBILITIES:

Teacher I agree to help students by making new information available to them, teaching the students skills and providing individual tutoring. I shall make parents aware of learning problems that may arise so that by working together we may solve them.

Student I have read and am aware of the criteria for my on-line class, and I accept the responsibility for the preparation needed to complete this course. I will participate on-line, in class and contribute positively to the learning process.

Parent I am aware of the criteria for this on-line course, and agree to help my child work to be successful in this course. I will help organize study time and encourage my child when the pressures of the course begin to build. I will communicate with the teacher any concerns about the course or any learning problems that need to be addressed. I will discuss proper internet usage with my son/daughter and am aware that my child must attend class weekly and bring in the supplies requested.

ETHICS POLICY:

All students will be expected to complete their own work. At times students will be given projects or exams that must be completed outside of class. If a student breaks this code, the Ethics Policy will be enforced which may result in the student being removed from the course.
