

PLANET EARTH

OVERVIEW OF THE PROGRAM MATERIALS AND INSTRUCTIONS

Attached are the materials you will need to participate in a video field trip with The Museum of Television & Radio. Please review these materials and call us with any questions.

Class Outline

The *Class Outline* describes what we will discuss in the video conference. Please review this so you will be familiar with what will be discussed. Also included are the student discussion questions. You will note that the questions are divided into Groups A,B,C and D. Each set of questions is on a different worksheet. Please break the class into 4 groups and distribute the ***Discussion Questions Sheets*** and both ***Break Out Discussions Sheets*** to each member of each group prior to the video conference.

Web Site

To prepare for the program visit the **Planet Earth** web site and complete the *Lead-up Activities*. After the presentation go back to the web site and complete the *Follow-up Webquest*.

Planet Earth Vocabulary

Please review the Vocabulary List with your students, we may refer to some of these words and concepts during the video conference presentation.

Instructions For The Tree Poem

What Does A Healthy Environment Mean To Me?

During the video conference the students will compose a poem in the shape of a tree. Although the presenter will get the students started on the poem, please review the instructions with the students prior to the video conference.

Questions
