PARENT BOARD:

If there is information that I need to share with you I will put it in this newsletter, and place it on the parent board. You will also find a copy of the daily schedule on the parent board and room assignments. The parent board could change daily, weekly or monthly. It only takes a minute to glance up and read. It is located right above the sign in and out sheet binder.

HOMEWORK:

It is district policy that we allow grades 1-5 45 minutes of homework time. If they do not have homework they are required to participate in a quiet activity e.g. reading, writing, drawing etc. We will assist the children when necessary but we leave the corrections up to you. If your children use the time correctly they should finish a decent amount of their homework, if not all of it!
