About our School...

Meadowbrook is an energetic and nurturing middle school where young adolescents are valued and respected. It is the school's vision to ensure that every student will master the knowledge and develop the skills and attitudes essential for college readiness and future success in life. Our staff is committed to providing a strong instructional program based on high academic, behavioral, and social standards through the use of a challenging curriculum and supportive environment.

Meadowbrook is located in the city of Poway, a suburban community 25 miles north of metropolitan San Diego. Our 1,300 students are from diverse cultural, ethnic, linguistic, and religious backgrounds.

Originally built in 1964, Meadowbrook began an extensive renovation project this year. When completed, Meadowbrook will have the look, feel and technological capability of a brand new school.

The staff includes 51 teachers and 40 support personnel. Our cooperative spirit and dedication to the core value of "all students learning" keeps us focused on providing a well-balanced program designed to excite, build on interests, and involve students in the process of becoming lifelong learners.

Learning at Meadowbrook does not end after seventh period, but continues through an extensive after school program that includes extra-curricular sports, clubs, library research, tutorials, and interaction with staff in a less formal setting.

Meadowbrook values and rewards student achievement in academics, the arts, athletics and personal development. It is truly a school where students succeed.

POWAY UNIFIED SCHOOL DISTRICT

Quality of Instruction and Leadership

“College Readiness for All – Gateway to Our Student’s Future,” drives our District philosophy to provide the finest learning opportunities for all students. Teachers, site administrators, support staff and parents participate in goal setting and decision making through active School Site Councils. Teachers and administrators hold valid state credentials, with fewer than 1% provisional certificates. The highly regarded Poway Professional Assistance Program provides support for new teachers. Teachers are formally evaluated every two years if they hold a permanent status, and annually if they have provisional or temporary status. Teachers are supported with stipends to participate in the National Board Certification process. Fully credentialed substitute teachers are provided by Personnel Support Services when teachers are absent.

Discipline and Climate for Learning

Respect, safety and responsibility are keys to providing a supportive and positive learning environment. All schools have their own discipline guidelines and encourage positive student behaviors. Rewards and consequences are communicated to students and made available to parents. A strong network of support services is provided to meet the needs of children. The District has an anti-discrimination policy that prohibits harassment of students or staff based on race, gender, disability, religion, or sexual orientation which is strictly enforced. The District is committed to the prevention of harmful behaviors, and maintains a discipline policy to address violations of the Education Code.

Safety, Cleanliness of School Facilities

Schools place strong emphasis on safety for students and staff. School Safety Plans are renewed annually and reviewed throughout the year. Annual training procedures and drills for earthquakes, fire and bus evacuation are held. The school district’s prudent use of resources ensures that students have access to clean and safe facilities. Maintenance staffs work with a scheduled preventive program to offset costly repairs at our older sites, whenever possible. A \$198 million school bond was passed in November 2002, to renovate 24 older schools. During 2006 Midland Elementary, the oldest school in the District, was replaced, Westwood Elementary, Twin Peaks, Tierra Bonita and the Rancho Bernardo High School Music Building were completed and 14 schools are currently being remodeled. Renovations address inequity of learning facilities, including expanding core facilities, adding classrooms and access to technology.

Staff and Curriculum Development

Research supports the positive effects staff development has on increasing student learning. A wide variety of professional development opportunities are available to teachers and staff including utilization of effective instructional strategies, technology, academic content areas, standards and assessment, positive school climate, and cultural competence training. Teachers and administrators are actively involved in professional growth activities at school, district, state, and national levels.

Counseling and Student Support Services

Students have access to speech and language services, special education, resource specialists, school psychologists, counselors, and other specialists to provide for their learning needs. Additionally, students work with support staff to assist in English language development, computer and library services and other specialized areas of need. The District Wellness Department provides a wide range of services to support student and family needs. In addition, health services are provided by specialized health assistants, health technicians, and nurses.

Textbooks/Instructional Materials & Technology

The District reviews all curriculum on a regular basis to ensure that students are presented with current and appropriate learning opportunities and materials. Students are provided with high quality textbooks, computers and other instructional and technological material to support the learning process. State approved textbooks are kept current and provided free of charge to every student.

Mission Statement

To ensure that each student will master the knowledge and develop the skills and attitudes essential for success in school and in a diverse society.
