

Parent / Teacher / Student
Progress Notice Conference

How do you feel your conference went?

How did you feel about the process?

How did your parents feel about the process?

What was the hardest thing to say to your parents? Why?
What was the easiest? Why?

The first time doing something new is always hard.

Now that you have conferenced with your parents like this, would you feel more comfortable doing a conference like this again?

What would you do / say again?

What changes would you make / what would you do / say differently?
