## PATHWAYS TO ACADEMIC PERFORMANCE

Linking the California State English Language Development Standards  
to the PUSD Language Arts Standards

The PUSD Core Values state that we believe in All Students Learning and Excellence in All We Do. We have developed language arts standards that reflect these values. One of the challenges in a standards-based learning environment is the need to provide instruction that will help all learners move toward the standards and, eventually, meet or exceed them. Our English Language Learners (ELL students) may have difficulty meeting grade level standards simply because of their limited English oral fluency and literacy skills. In addition, they may have had very different educational experiences in the past, so they may lack the prerequisite skills which are assumed as foundational pieces at their grade level. Because of these challenges, we sometimes think that the PUSD standards do not apply to our English Language Learners. We may be searching for different Standards that will better meet their needs.

Instead of looking for different Standards, we need to identify the beginning prerequisite skills that are required for any student to meet a particular standard. These are the skills that the English language learners must acquire initially before they can meet the English language arts standards. We often don't think about these skills because most of our students already have them in place before they come to our classroom. For example, in order to "use strategies to comprehend informational materials," (PUSD 8<sup>th</sup> grade reading Focus Goal, 2.1) the student must recognize letters of the alphabet and have adequate decoding skills. Most 8<sup>th</sup> grade students already have these skills in place. However, 8<sup>th</sup> grade English Language Learners may not recognize alphabet letters and may not have adequate decoding skills.

The State of California has developed a continuum of some of these prerequisite skills (instructional objects) which they call "pathways to academic performance" and has grouped them together under English language development (ELD) standards. The State ELD standards are divided into four grade level spans (**K-2, 3-5, 6-8, and 9-12**). They address English language learners at five different levels of proficiency (**beginning, early intermediate, intermediate, early advanced, and advanced**) in each grade level span. *This document is organized by individual grade levels.* You will note that some instructional objectives apply to two or more grade levels within a grade level span.

The purpose of this document is to take the instructional objectives from the State ELD standards and link them to our PUSD language arts standards. When a teacher is planning a lesson based on a PUSD standard/focus goal, s/he can easily identify the pathway skills that can be the instructional objectives for the ELL students at a particular level of language proficiency. This list of ELD instructional objectives is not complete, nor is every PUSD focus goal addressed at each grade level for each language proficiency level. Teachers need to use this document as a model for designing instructional objectives for their English language learners to help them develop the pathway skills they need to acquire to meet the PUSD English language arts standards.
