

October 2016

Dear Parents:

The federal government reimburses qualified school districts for the impact on those school districts from federally owned property and federal employment. Federal law requires all school districts that are eligible to receive reimbursement from the federal government to report the number of students who live on federal property, students whose parents/guardians are employed on federal property, or students whose parents/guardians are associated with the federal government (such as being on active military duty).

To obtain these additional federal funds for our district, the federal government requires an annual survey of all students; this survey form is attached. The information gathered from this survey is summarized in a report that identifies only the total number of qualified students. Our response to the federal government does not include any names, addresses, places of employment, etc. Only total numbers are forwarded. All survey forms are stored in our central offices and not released to any other agencies or individuals.

We would appreciate your assistance in completing the survey form and returning it to your child's school by the appropriate deadline date. The completion of this form allows our district to obtain these additional revenues, which, if not applied for, will be assigned to other school districts throughout the nation. Please assist us in obtaining these additional revenues so that we can provide a higher quality education for your child.

Sincerely,

Mel Robertson, Ed.D.
Acting Superintendent

IMPORTANT INSTRUCTIONS

Dear Parents:

Please fill out this form, sign, date and return to school with your child tomorrow.

Federal funds have been made available to schools within federally affected areas. To qualify for these funds, it is necessary to conduct this survey.

The amount of revenue we receive is determined by the number of pupils living on, or parents employed on, federal property ***on the date shown, no matter who the employer may be.*** This money assists in financing our school program and thus helps to maintain the high level of education. In order to qualify, we must have a completed SIGNED and DATED survey form on file for each pupil regardless of where employment indicates federal connection.

Thank you for your cooperation in this matter.

Mel Robertson, Ed.D., Acting Superintendent

The following is a PARTIAL LIST of federally owned property in this area:
