

CONTESTS AND AWARDS

Because of the number and variety of contests and awards submitted to the schools, and in order to avoid undue encroachment upon the time needed for classroom instruction, all contest and/or award requests shall be directed to Learning Support Services for approval.

The term "contest" as used in this statement is defined as any activity that is competitive in nature and initiated by an organization not officially affiliated with the schools.

Procedures will be developed for determining the merits of the submitted contests and for processing the requests.
