

PREVENTING AND MONITORING COVID CASES IN SCHOOL SETTINGS

Last updated 8/17/21

Screen daily for symptoms*

If an individual has symptoms,

- Do not come to school and isolate at home
- See healthcare professional for a COVID-19 test
- With Negative PCR Test: Remain home until the symptoms are improving, and fever free for 24 hours, without the use of fever reducing medicine
- With No Test: Remain home for 10 days, return on Day 11 if symptoms improve and fever free

Close contact quarantine** - asymptomatic Unvaccinated

- Quarantines for 10 days and returns to school on the 11th day if asymptomatic
- OR
- Quarantines for 7 days if a student provides a negative PCR COVID test on or after day 6 of exposure date; student returns to school on the 8th day
- OR
- Remains in school and undergoes twice weekly testing (each test at least 3 days apart) during 10 day modified quarantine with proof of negative results.
 - Does not participate in extra curricular activities in school or community setting.

POSITIVE TEST

- Full at-home isolation for 10 days regardless of vaccination status
- Can return to school on or after Day 11 with improving symptoms if fever free and no use of fever reducing medicines in the last 24 hours

Close contact quarantine - asymptomatic Vaccinated

No quarantine is necessary for vaccinated students, as long as asymptomatic.

*COVID-19 symptoms include: fever, chills, cough, shortness of breath or difficulty breathing, fatigue, body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea, or diarrhea

**This applies to school settings only. If COVID exposure occurs outside of a school setting, including in the home, the quarantine period is 14 days.
