

Serving educators *since 1945*

Educators are taking care of our children's futures, and they deserve someone taking care of them.

Since 1945, that belief has driven us to create products and services that put teachers first — **to help them protect what matters most today and prepare for a successful tomorrow.**

We have been meeting the insurance & financial needs of America's educators for more than 75 years. We offer many services and products including auto, property, life insurance, retirement accounts, student loan forgiveness, STRS/PERS reviews, and classroom funding through [DonorsChoose.org](https://www.donorschoose.org).
