

# INTERNSHIP

Want to explore your career choice while in high school?  
You can.

## INTERNSHIP

Meet in the class on Tuesdays during 5th period and spend the other days out working at an internship that the instructor can assist you in finding. This is an opportunity to try something related to a future career interest, especially if Mt. Carmel does not have your career pathway available on campus

The course runs each trimester and is 12 weeks long. Students can take it for 1, 2 or 3 trimesters. Students can also earn college credit through Palomar Community College for the course CE 100.
