Did you know that your high school job can also count for elective credit for high school?

MT. CARMEL WORK EXPERIENCE

The course runs 5th period each trimester and meets once/week. The other days of the week students are working at their jobs in the community. In the classroom students learn about reading paychecks, workplace safety, labor laws, how to fill out required forms, interviewing and resume writing.

Not only does the course count for high school credit toward graduation, it is articulated with Palomar Community College CE 100 for college credit.
