FERPA

Dear Seniors and Parents:

Attached you will find the “Permission to Release School Information.” Counselors and other members of the district administration have created this form in order to clarify issues surrounding the federal government’s Family Education Rights and Privacy Act (FERPA) of 1974 and college application support.

It is the collective view of the district that letters of recommendation are viewed far more favorably by colleges, universities and those considering scholarship applications if readers believe they are receiving an unvarnished, honest assessment of a student’s character, academic ability, and future potential. We understand and support a family’s rights under FERPA, but believe that support material in college applications and scholarships should be confidential correspondences. Further, if readers believe that families have had access to the contents of these correspondences, they could easily suspect that important and perhaps less than flattering information was omitted for fear of offending the student or his/her parents.

For these reasons, we strongly urge families to waive their FERPA rights to all information related to scholarships and letters of recommendation. Letters sent by Poway Unified School District staff in support of students may indicate whether FERPA rights were waived.

If you would like to hear from readers of letters of recommendation, we urge you to contact the specific college or scholarship program to which your son or daughter is applying.

Be assured that we all want the greatest success for our students and will be as supportive as possible. If you have further questions, please contact your counselor.

Sincerely,

The Mt Carmel High School Counseling Department
