# *FAQ My Plan, My Connect, Canvas*

Q: What is the difference between My Plan, My Connect and Canvas?

A: My Plan is a student's centralized dashboard full of access to numerous apps for things like distance learning (ie. Khan Academy, MyConnect), grade and past due assignment checking in Synergy, SBAC and MAPS data. It is the launch pad.

Think of MyConnect (aka Canvas) as an online classroom with each student having a dashboard of their courses. MyConnect gives access within each course to anything from a teacher's calendar of assignments to modules (a unit of study like Photosynthesis) and assignments (Chapter 1 photosynthesis notes). There are announcements as well the teachers can use to alert students of upcoming events in class.

Myplan and MyConnect both use the same login credentials. You can find your MyConnect page by first going to your MyPlan launch pad.

Q: I forgot my login. What do I do?

A: Please contact the PUSD [IT Help Desk](#)

Q: My student's teacher uses Google Classroom. Where do I find that web address?

A: The link to the teacher's Google classroom should be on the homepage of their MyConnect course. If it is not, email the teacher directly for the link.
