

## **FAQs Course Selection Frequently Asked Questions**

Q. What is UC “A-G”?

A. *The University of California developed the “A-G” subject requirements to ensure that students attain a body of general knowledge that will provide breadth and perspective to new, more advanced study. Poway High’s Course Request Worksheet is designed to facilitate “A-G” achievement, and meet the basic High School Graduation requirements.*

*For more information on “A-G” visit: <http://www.ucop.edu/doorways/>*

Q. What do colleges think about students choosing an off-roll?

A. *The trimester system provides students an opportunity to earn up to 75 credits each year when only 60 credits per year are needed for Graduation. Off-Rolls can be used to offset a heavy course load, to ensure 5<sup>th</sup> period availability for athletics, or to honor volunteer activities, internship, family responsibilities, or part-time employment, etc. Off-Roll does not appear on Transcripts*

Q. My student is an athlete and during the season he / she frequently misses 5<sup>th</sup> period class, is there a way to request an elective specifically in 5<sup>th</sup> period.

A. *No, the only way to ensure that a student doesn’t miss 5<sup>th</sup> period class is to take an Off-Roll 5<sup>th</sup> period of the trimester in which the sport is in season.*

Q. How does the new math curriculum affect me?

A. *The math curriculum is changing but it will only affect incoming 9<sup>th</sup> graders. All other students should ask their current math teacher for their recommendation of what to take next year.*

Q. Should I take 2 or 3 trimesters of math?

A. *Aside from moving further ahead in math, the advantage of 3 trimesters of math is keeping your math brain engaged, making it easier to pick up where you left off.*

Q. I took Spanish in middle school does that count?

A. *Middle school coursework does not generate high school credit, nor is it recorded on the high school transcript. However, Middle School Spanish does count towards meeting the “A-G” requirement for Language other than English.*

Q. Do I need a foreign language to graduate high school?

A. *No, but most 4 year colleges require 2 years of the same language; and many recommend 3 years.*

Q. What is considered a lab science?

A. *All the science courses offered at PHS are lab sciences and meet the UC “D” requirement with the exception of GeoScience, Agricultural Science and Veterinary Science.*

Q. What are the “typical” fundamental science classes needed if students want to attend a 4 year college after high school?

A. *Biology, Chemistry and Physics.*

Q. Do I need to take two levels of the same class to meet the UC 'F' requirement?

A. *Not necessarily, but the 2 classes must be in the same discipline, for example Drama and Choir are both in the Performing Arts discipline. Design Mixed Media and Photography are both in the Visual Arts discipline.*

Q. Does Tall Flags fulfill the "F" Visual and Performing Arts requirement or the PE requirement?

A. *No, Tall Flags is "other elective."*

Q. I'm not interested in the "G" courses offered, how do I meet the "G" requirement?

A. *Any "A-F" classes taken beyond the minimum required will count as "G" electives. For example a fourth year of math, a third year of science or foreign language or a second year of any visual or performing arts electives.*

Q. If I earned a "D" or "F" in a class, do I have to repeat it?

A. *YES!! See your Counselor. Counselors will also have the course numbers necessary for you to re-enter those classes.*

Q. What should I know about the PUSD Virtual High School Online classes? Are they hard? How do I know if I am a good candidate to take an online class?

A. *The PUSD Virtual classes are a great choice for students who are independent and good at balancing various responsibilities. In the absence of a daily classroom contact with a teacher, students have to be very responsible and proactive with their questions/concerns about the assignments and curriculum in the online classes. Students shouldn't take an online course for a subject that they struggle with.*

#### FAQs specific to online course entry

Q. When entering my courses online there is a place for Alternates. What do I do?

A. *You may enter your second choice elective only. For example: if Photography 1 is your first choice elective, input course number 000872 as part of your 15. In the Alternates section you can enter your other choices you would like if Photography is unavailable. Alternates do NOT count as part of your 15 total course selections!*

Q. I keep seeing a red "Pre-Req not met" warning...can I still sign up for the class?

A. *Yes, it's only a warning. In most cases, students are currently enrolled in the pre requisite. See your counselor for questions.*
