

Volunteer at Scripps Memorial Hospital La Jolla

Be a Part of it All

With so much happening on the campus of Scripps Memorial Hospital La Jolla, there has never been a better time to volunteer and be part of the exciting expansion under way.

In 2015, the Prebys Cardiovascular Institute will open its doors to patient care. This state-of-the-art facility will transform heart care in San Diego — and beyond.

As a Scripps volunteer, you can touch the lives of patients at this new facility in many ways. Whether assisting employees, greeting visitors or helping patients at their bedside, our volunteers provide invaluable service. You will learn new skills, make new friends and gain great experience, while enhancing the overall care provided at Scripps.

Volunteers must be age 15 or older and commit to serving at least one, four-hour shift per week.

There are many opportunities available, and our volunteer office will help find the one that is right for you. For more information, call **858-626-6994** or email ljvolunteerservices@scrippshealth.org.

The Prebys Cardiovascular Institute will be a landmark for heart care in the San Diego region and beyond. The 383,000-square-foot hospital is designed to provide patients with innovative care using the most advanced treatment options available today. It will also serve as a center for medical research, clinical trials and graduate medical education. It's an exciting time to join our volunteer team at Scripps La Jolla.
