All children are required to have vaccinations fully completed before enrolling in child care/preschool unless exempted as provided by law. Under a new law known as SB 277, beginning January 1, 2016, exemptions based on personal/religious beliefs will no longer be an option for vaccines that are currently required for entry into child care or preschool in California. Personal/religious beliefs exemptions on file for a child already attending child care or preschool will remain valid until the child reaches the next immunization checkpoint at kindergarten (including transitional kindergarten) or 7th grade. Medical exemptions, either temporary or permanent, are acceptable with a written statement from a licensed physician (M.D or D.O.).
