Describe Your Work				Hourly Pay	
Reason for leaving					
Progress and success in the Workability Program is directly dependent on your own effort , similar to an actual job experience. The WorkAbility Program staff are here to assist you in obtaining your employment goal, however, this service is student led and you will have certain responsibilities that need to be met in order for you to be successful. If vocational prep services lead to a subsidized work experience internship, hours may not exceed a total of 20 hours. After completion, it is the decision of the employer to offer employment as a direct hire. Work permit guidelines require maintaining a 2.0 GPA or above, and satisfactory attendance and citizenship.
