

The ECO League

A commitment to environmental learning

www.ecoleague.org

These small liberal arts institutions all share similar missions and value systems based on **environmental stewardship, social change**, and educating students to build a **sustainable future**.

And all of the Eco League colleges stress **experiential education** and global perspectives based on a **sense of place** so students are prepared to take on real-world challenges when they graduate and create **sustainable communities** wherever they choose to work.
