

# YOUTH ENRICHMENT PROGRAM FOR GRADES 1-8

*Camps are listed by grade level categories: 1-2; 3-5; 6-8. Select camps have varied levels.*

## GRADES 1-2

### Grades 1-2, Week 1: June 18-22

#### Introduction to Spanish

Fanianos

#7170

\$149

Learn Spanish concepts like greetings, colors, numbers, animals, family members and body parts through songs, stories, finger plays, movement, puppetry and hands-on activities. We will make puppets using recyclable materials and act out a story to use the vocabulary we learned. We will use dancing materials like bean bags, scarves and streamers to introduce colors and count in Spanish. We will use play dough, games, and other sensory materials to reinforce the vocabulary.

#### Animal Adventures in Art

Hayes/Young

#7171

\$159

Have fun with mixed media art focusing on animals and their habitats. Students will create watercolor resists, collages, wind-spinners, sculptures, masks, and even a Chinese dragon and her egg!

#### Chromebook Fun

Patterson

#7215

\$149

Let's explore the world of Chrome Books, Google Docs, Google Slides, and practice keyboarding and other technology for fun and school success. The camp is for students in grades 1 and 2.

### Grades 1-2, Week 2: June 25-29

#### Hands-on Science

Janette

#7180

\$154

Campers do you love science? Do you love experiments? How about literature? We will combine all three of these STEAM concepts experience hands-on science. We'll look at Chemical Reactions, All About Water, Simple Machines and Cool Mixtures. Join us for fun STEAM Challenges.

#### Dr. Seuss on the Loose with STEAM

Palmer

#7179

\$154

Rhyme like Dr. Seuss. Create a story. Add STEAM activities about gravity, animals, and nature inspired by Dr. Seuss, and art. Bring your creativity and words.

### Grades 1-2, Week 3: July 9-13

#### Readers' Theatre

Aneshansley

#7193

\$149

Do you love group storytelling, narration and movement? In this camp, you'll enhance your reading, speech, artistic, and social skills as you learn new vocabulary and use artistic abilities to build simple costumes for a play. Students read their parts of the script and act them out throughout the week. Parents come and enjoy a grand performance on the last day.

#### Creating Your Own Works of Art with Acrylics

Novick

#7219

\$159

Get creative this summer with Acrylic Painting. Choose your own subject matter to create works of art. We will work on techniques of Acrylic Painting and apply them to each child's specific interests. Subject matter will come from still life, photographs, famous works of art, and anywhere else.

### Grades 1-2, Week 4: July 16-20

#### Chemistry of Slime

Aneshansley

#7194

\$159

Do you love science? Are you a budding chemist? Each day we will explore a new substance such as slime, playdough and goo. In this fun, hands-on lab, we will learn the science and chemistry behind our creations.

#### Theatre Arts: Playing with Character

DeYoung

#7210

\$149

Examine differences in character points of view, including speaking in a different voice when reading and performing aloud. Using well-known children's stories, we will identify ways in which voice and sound may be used to create or retell a story. You will practice acting, public speaking, movement, creativity and imagination. This camp is for students in grades 1 - 5.

## GRADES 3-5

### Grades 3-5, Week 1: June 18-22

#### Keyboarding and Google Apps

Berry

#7172

\$149

Learn a life skill, keyboarding; then use your keyboarding skills to create documents, presentations and basic spreadsheets using Google Apps. In this fun, technical camp, students will have an opportunity to create meaningful presentations about themselves to share with family and friends.

#### STEAM Building Challenges

Elderson

#7201

\$159

Participate in daily STEAM challenges where we will develop engineering and critical thinking skills. We will create a mini-roller coaster, a suspension bridge, construct a conveyor belt, build a safety device for an egg-drop and lots more. This camp is hands-on and very engaging. Bring your creativity with you.

#### Cartooning

Josten

#7173

\$154

Learn drawing techniques to create characters, setting, captions, and help you on your way to making your own cartoon strip. The techniques you learn in this class will also help you to make anything come alive so you can create better-looking posters and project for school.

#### The World of Wildlife

Roff / Crawford

#7216

\$149

Get introduced to the world of wildlife conservation. We'll learn about the fascinating wildlife that inhabits this planet and how to respect and preserve the life living among us. The focus will be on creative education that includes many fun, interesting and hands-on activities to ignite a passion and admiration for nature.

### Grades 3-5, Week 2: June 25-29

#### Introduction to Spanish

Fanianos

#7182

\$149

Learn Spanish concepts like greetings, colors, numbers, animals, family members and body parts through songs, stories, finger plays, movement, puppetry and hands-on activities. We will make puppets using recyclable materials and act out a story to use the vocabulary we learned. We will use dancing materials like bean bags, scarves and streamers to introduce colors and count in Spanish. We will use play dough, games, and other sensory materials to reinforce the vocabulary.

#### Animal Adventures in Art

Hayes / Young

#7183

\$159

Have fun with mixed media art focusing on animals and their habitats. Students will create watercolor resists, collages, wind-spinners, sculptures, masks, and even a Chinese dragon and her egg!

#### STEM Water Fun

Mahlow

#7184

\$159

It's summer in sunny San Diego. So, how about learning more about science and engineering while playing with water! Learn about the chemistry of water and then play with and build boats, water wheels, and models of watersheds and aquatic ecosystems. You'll test the water content of fruit and clean up an oil spill. Be prepared to get a little wet!

### Grades 3-5, Week 3: July 9-13

#### Poetry, Art, and Technology Extravaganza

Elderson

#7200

\$154

Unlock your inner-poet in this STEAM camp. Explore different styles of poetry, connect to art projects and publish your work through a variety of tech tools. This camp is sure to be a hit for any camper interested in art, poetry or technology.

#### Programming with Scratch and Spheros

Fisher

#7192

\$154

Scratch is a fun, visual computer language which allows you to create games, interactive stories and animation in a short amount of time. Spheros is a spherical robot that can be programmed to do multiple tasks. Using both we will have an engaging camp learning about programming while having fun.

#### Full STREAM Ahead! The Engineering Design Process

Yeatts

#7208

\$159

Join us as we explore science, technology, research, engineering, art, and mathematics with hands-on activities and innovative projects. Essential reading and writing skills, and math concepts will be reinforced. Critical thinking skills will sharpen as our inventions come alive. We will use research and investigation to build an earthquake-resistant building, floating boat, looped roller coaster, and sturdy bridge. Develop real-world problem-solving skills through STREAM power!

## Grades 3-5 Continued...

## Grades 3-5, Week 4: July 16-20

**Theatre Arts: Playing with Character**

DeYoung

#7210

\$149

Examine differences in character points of view, including speaking in a different voice when reading and performing aloud. Using well-known children's stories, we will identify ways in which voice and sound may be used to create or retell a story. You will practice acting, public speaking, movement, creativity and imagination. This camp is for students in grades 1 - 5.

**Whacky Watercolor Painting**

Luo

#7197

\$159

Let's paint this summer! Join us as we explore basic watercolor techniques and continue with special effects. You will use all the new techniques to create your own artwork.

**Hearts, Eyes, and Frogs! Dissection Camp**

Parker

#7195

\$159

We will use a variety of tools and activities to learn about the heart, eye and brain such as building paper-models, watching videos, note-taking strategies, and lecturing. Then we will dissect hearts, eyes and frogs.

## GRADES 6-8

## Grades 6-8, Week 1: June 18-22

**Turn Tales into Treasures Creating Audiobooks**

Hobscheid

#7186

\$149

Bring all your creative voices with you to this camp! Deep voices, soft voices, high-pitched voices and funny voices! We will find a book that you love and practice creating character voices, and storytelling. We'll talk in front of microphones so you become comfortable with your own voice.

**Sewing Creatures**

Mahlow

#7176

\$154

Do you love making things with your imagination and your hands? In this camp, you will learn how to make your own pattern of a real or imaginary animal and sew it into a stuffed animal all by hand! You'll learn how to include embroidery and sew on buttons. Once you learn how to embroider, sew by hand, and sew on buttons, you can make all your gifts and open your own small business doing work for your neighbors! All supplies will be provided for this camp.

**Exploring Skilled Trades**

Peck

#7178

\$159

Explore different careers that can be fun and exciting. We'll look at Surf Board Shaper, Theater Production, Glass Blowing, Welding and Carpentry and Veterinary Technician. We'll have guest speakers who are in the trades. Bring your curiosity and questions and plan for an eye-opening week of learning and hands-on creativity.

**Get Ready: High School and Beyond**

Thompson

#7185

\$149

In this camp, you'll identify your interests and goals and discover careers aligned to them. Learn skills to prepare for high school success and eventually lifetime success! You'll hear about the process for selecting post-secondary education options. And, you will begin to develop an educational pathway to prepare you to reach your educational and career goals.

**Crime Scene Investigation**

Vecchioni

#7174

\$159

Do you have an investigative mind that loves to solve a good mystery? Crime scene investigation (CSI) is for you! You'll process and transfer evidence, dust for fingerprints, match footsteps, and more as you experience, hands-on, the actual tools and materials used by real investigators under the direction of San Diego's former head of the FBI's Evidence Response Team.

**Vex Robotics**

Wiesmeier

#7202

\$159

Do you imagine that someday you can make a robot do all of your chores? Don't wait for the future to learn how to make your dreams come true! Learn to build and program vex robots. You'll use a 3D modeling program first and then program your robot with unique autonomous behaviors for competition! For the grand finale, you'll drive your robot by remote control and make it move objects!

**Introduction to Healthy Cooking**

Willkie

#7204

\$159

Get hands-on cooking experience in planning and cooking with delicious and healthy ingredients from every food group. We will make breakfast, lunch and dinners. Take the first step to better nutrition by learning how to cook!

See next page for Grades 6-8, Week 2

## Grades 6-8 Continued...

## Grades 6-8, Week 2: June 25-29

**Programming with Scratch and Spheros**

Fisher

#7191

\$154

Scratch is a fun, visual computer language which allows you to create games, interactive stories and animation in a short amount of time. Spheros is a spherical robot that can be programmed to do multiple tasks. Using both we will have an engaging programming camp while having fun.

**You'll Be in Stitches! Beginning Sewing**

Fowler

#7188

\$159

Join this camp and learn to sew! In this beginning sewing camp, you will learn how to shop for fabrics and supplies, operate a sewing machine, basic sewing terms and techniques while making a variety of quick and easy projects. You will make and take home several projects: a tote bag made from a recycled T-shirt, a pin cushion, pillow case and elastic waist shorts or a skirt. Students will receive a short supply list to make their projects (except for the 1st project: Funky Chicken Pin Cushion).

**Band for Incoming 6th Graders**

Holmes

#7206

\$149

We will pick up right where your 5th-grade band experience left off and give you a jump-start for middle school! We will explore the new options of instruments available for you to play, learn new skills on all your instruments and prepare a performance for your parents at the end of the week. Large instruments such as Tuba, Baritone, Tenor Sax, Bari Sax, and Percussion can be provided. We can also provide a limited number of smaller instruments but it is best to have your own. This camp is for students going into Grade 6 in the 2018/2019 school year. Students going into grades 7-9, please see "Summertime Blues" camp in Week 3.

**First Aid and CPR: First Responder Junior**

Lochner

#7214

\$149

Being able to assist someone in case of emergencies is everyone's responsibility. What would you do if you were the only one around when someone falls down and cuts their head, breaks their arm or burns themselves? What if they needed CPR or other first aid assistance? Are you ready to respond? This camp will teach you how to be more helpful to someone in an emergency. From treating minor injuries and First Aid to infant and adult CPR, we will cover it all in this hands-on, interactive course.

**Hearts, Eyes, and Frogs! Dissection Camp**

Parker

#7187

\$159

We will use a variety of tools and activities to learn about the heart, eye and brain such as building paper-models, watching videos, note-taking strategies, and lecturing. Then we will dissect hearts, eyes and a frog.

**Crime Scene Investigation**

Vecchioni

#7175

\$159

Do you have an investigative mind that loves to solve a good mystery? Crime scene investigation (CSI) is for you! You'll process and transfer evidence, dust for fingerprints, match footsteps, and more as you experience, hands-on, the actual tools and materials used by real investigators under the direction of San Diego's former head of the FBI's Evidence Response Team.

**Improvistional Theatre**

Wetzell

#7213

\$149

Are you intrigued by the theater and improvisation? Join us in this theater camp where improvisational games will strengthen your memory, creativity and ability to think on your feet. We'll create skits from improvised scenes and learn to use your imagination for fun and focus.

**Mixed Media Sculptures**

Willkie

#7189

\$159

Bring your artistic creativity to this camp! We will use a variety of materials such as fiber arts, plaster, clay and found objects to make 3D sculptures. We will even make a plaster sculpture of our own hands, a fiber art piece on plastic mesh canvas, and a clay and mixed media bird. No prior art experience is needed, just an enthusiasm for arts and crafts!

**Introduction to Healthy Cooking**

Yeatts

#7218

\$159

Get hands-on cooking experience in planning and cooking with delicious and healthy ingredients from every food group. We will make breakfast, lunch and dinners. Take the first step to better nutrition by learning how to cook!

Poway Unified School District provides YEP as a high-quality, summer enrichment program for all youth regardless of their enrollment in PUSD schools. Camps are supported entirely by student tuition fees and are supplemental in nature.

See next page for Grades 6-8, Weeks 3 and 4

## Grades 6-8 Continued...

## Grades 6-8, Week 3: July 9-13

**Speech and Debate**

Derksen

#7220

\$149

Are you interested in strengthening your critical thinking and public speaking skills? You will learn about and prepare for several speech and debate events to get a head start on preparing for competitive Speech and Debate in high school. This camp is designed for students in grades 7-9.

**Fabulous Fabric Makeovers: Repurpose Old into New**

Fowler

#7199

\$154

Make fun, inexpensive and earth-friendly sewing project that will surprise friends and family! If you know the basics of sewing, how to use a sewing machine and want to turn some trash into treasure, then this is the perfect class for you. We will explore ways to reuse items such as old jeans, t-shirts and plastic bags and turn them into storage bins, cell phone accessories, shabby chic bracelets and more. Plus you are encouraged to bring your own upcycling project to Friday's class to make and share an idea with other campers. For the first day, please salvage from home or purchase at thrift stores: a recycled pair of jeans, t-shirt, cotton shirt, 1-3 single-use plastic bags, (optional: plastic cereal box liners, tablecloths, buttons, trims, beads and zippers).

**Creativity and Mindfulness Through Art**

Hayes/Young

#7209

\$159

Come express yourself and have fun creating meaningful artwork that promotes focus, self-love, and the expression of gratitude. Our young artists will be introduced to many mediums as they create beautiful art that will build confidence, emotional intelligence, and mindfulness. All of our projects are those that encourage self-reflection, such as a mixed media Gratitude Tree, an acrylic Abstract Affirmation, a Mandala created from objects found in nature and several others.

**Summertime Blues Band**

Holmes

#7207

\$149

Spend the week keeping your skills sharp on your instruments by playing some Rock, Pop, and Blues favorites arranged for Middle School Concert Band. We will conclude the week with a performance for the parents and other guests. This camp is for students going into Grade 7-8 in the 2018/2019 school year. Students going into grade 6 should sign up for Band Camp in Week 2.

**Arduino Camp**

Wiesmeier

#7221

\$159

Is your mind geared for programming? If so, join us for a week of programming Arduino Microcontrollers and learn about the electricity that runs them. We'll discuss their internal structure, how they store information and how to program them. You'll have plenty of hands-on learning with the various tools of programming from multi-meters to oscilloscopes.

## Grades 6-8, Week 4: July 16-20

**Beginning ASL**

Conlon

#7211

\$154

This fun introductory camp is designed to teach you basic finger spelling, numbers and the 5 Sign parameters. We'll learn conversational skills of this fascinating language. Deaf culture and its history will also be explored. Join us for a fun packed week!

**Turn Tales into Treasures Creating Audiobooks**

Hobscheid

#7196

\$149

Bring all your creative voices with you to this camp! Deep voices, soft voices, high-pitched voices and funny voices! We will find a book that you love and practice creating character voices, and storytelling. We'll talk in front of microphones so you become comfortable with your own voice.

**Digital Photography and Photoshop**

Holmes

#7212

\$159

Bring your camera with you to camp, where you'll learn the technical workings of it, importing and manipulating work in Adobe Photoshop. You'll also learn about composition, framing, exposure, and lighting. We'll start with a daily artistic photo challenge and then manipulating images in Photoshop.

**Creating Your Own Works of Art with Acrylics**

Novick

#7222

\$159

Get creative this summer with Acrylic Painting. Choose your own subject matter to create works of art. We will work on techniques of Acrylic Painting and apply them to each child's specific interests. Subject matter will come from still life, photographs, famous works of art, and anywhere else.

**Make Your Designs with 3D Printing and Auto CAD**

Wytmans

#7198

\$154

Turn your ideas into designs and then into reality! You can make anything from jewelry to keychains; decorate your creations with your signature style. Using computer-aided design (CAD) to make 3D drawings you will print your creations on a Makerbot Replicator 3D printer. We'll start with simple shapes, working up to more complex designs as you learn STEAM career skills!

**Introduction to Healthy Cooking**

Yeatts

#7223

\$159

Get hands-on cooking experience in planning and cooking with delicious and healthy ingredients from every food group. We will make breakfast, lunch and dinners. Take the first step to better nutrition by learning how to cook!
