EXPLANATION OF SCREENING PHYSICAL

I realize that the medical evaluations performed are only screens in order to evaluate general health, to disclose existing problems, and to determine my son or daughter's dynamic ability to participate in a given sport so that obvious conditions which might be damaged or aggravated by competitive sports can be found, evaluated and treated so as to prevent further injury. This examination does not guarantee against injury. Parent Initials Student/Athlete Initials

AWARENESS OF RISK

STUDENT AND PARENT: I am aware that playing/practicing sports can be a dangerous activity involving many risks of injury. I understand that the risks of participation include, but are not limited to, death, serious neck and spinal cord injuries that may result in complete or partial paralysis, brain damage, serious internal injury to virtually any internal organs, bones, joints, muscles, tendons, or any other aspect of the skeletal system, and serious injury or impairment to other aspects of my body, general health and well being. I understand that the risks of participation may result not only in serious injury, but in impairment of my future ability to earn a living, to engage in other business, social and recreational activities, and generally to enjoy a good life. Because of the dangers of participating in sports, I recognize the importance of following coach instructions regarding playing techniques, training, equipment and other team rules, etc. both in competition and practice and agree to obey such instructions.
