Poway Unified Unveils New, Interactive Tool To Assist Community Facilities Districts Homeowners

At its Monday, September 16, 2013 meeting, the PUSD Board of Education approved the launch of an updated web portal where PUSD homeowners can compute and verify their Mello-Roos parcel assessments. Modifications recommended by the Board of Education at the September meeting are now complete and the web portal is live.

Poway Unified School District has maintained a Parcel Tax Database for homeowners on its District web page since 2007.

This update, according to Superintendent John Collins, "is part of the District's commitment to provide timely, two-way, transparent communication with our community on the issues that matter to them."

Accountants and web designers from the Dolinka Group, the organization that administers PUSD's Community Facilities Districts (CFD), collaborated with the District in updating the portal's design and functionality.

Board of Education President, Marc Davis notes, "It is important that District homeowners are confident that the taxes on their properties have been properly and accurately assessed by the City of San Diego. We will continue to work cooperatively with the City to ensure the validity of all current and future tax assessments."

The portal can be viewed at www.powayusd.com.
